GETTING STARTED

STARTING THE FIRST TIME
 In a multiple screen configuration, most video cards will boot one screen first, thus allowing you to configure your system as you see fit. Once the appropriate drivers have been loaded, the system will re-boot and bring up both screens. You may then proceed to arrange your desktop, configure any particular environment characteristics you wish, and start up your applications.

MAINTENANCE
 Liquid Crystal Displays are highly sophisticated pieces of equipment. Avoid touching the screen surface with any sort of hard object, as this may result in scratches, which will reduce the effectiveness of the display and are not covered by your warranty.

Always handle your monitor with care when moving. If you move the screens around on a frequent basis, it is also good idea to periodically check to ensure that all fittings and screws are tight.

PACKAGE CONTENTS
 Your C2H-18D dual format package includes:
 A dual head monitor system with integral video cables terminated with 29 pin high DVI-I connector.
 Two universal input power supplies complete with power cord is supplied.
 User manual
 Warranty card
 Registration Card
 Analog adapter (optional)

PRECAUTIONS
 Avoid touching or applying pressure to the screen with your fingers as damage to the liquid crystal layer may occur. Wipe marks from the screen with absorbent cotton or a soft cloth. Do not use chemical cleaners.
 The monitor contains high voltage parts. You may suffer serious injury if you touch these parts.
 Avoid exposing the monitor to direct sunlight or another heat source. The monitor should be facing away from direct sunlight to reduce glare.
 Do not place anything on the monitor that blocks the flow of air through the vent which may prevent adequate dissipation of heat.
 Ensure the area around the monitor is clean and free of moisture.
 Do not place heavy objects on the monitor, video cable or power cord.
 If smoke, abnormal noise, or strange odor is present, immediately switch the monitor off and call your dealer. It is dangerous to continue using the monitor.

UNPACKING YOUR MULTIPLE

- Carefully unpack the LCD monitors. Handle the monitors with care so that pressure is not placed on the front surface of the LCD panel as this may result in permanent damage to the panel.
- Unpack the structure carefully. Retain the base tray to prevent it from tipping during installation. Place the structure and base tray on a level surface. Then simply slide the LCD monitor onto patented 'quick release' system. Ensure that the LCD panel **locks in place**.
- Slide base tray from assembly. After confirming that all the LCD panels are secured, feel free to adjust the panels to the desired position. Hold the LCD screen without applying pressure on the LCD surface, and adjust.
- Proceed to connect the display system to your computer as detailed in this user manual.

USING THE QUICK RELEASE

DETAIL OF QUICK RELEASE SYSTEM

- DOCKING YOUR LCD AND TIGHTENING BALL JOINT**
- Match the 'dove tail' to ensure that the LCD unit sits flat against the 'ball and socket' assembly.
 - Simply slide the two interlocking parts, while ensuring that the unit is locked in place. Now you can proceed and install the connectors.
 - To remove the LCD head reverse the procedure. To unlock the LCD unit you must depress the 'quick release' latch. Ensure a proper grip on the LCD to prevent it from slipping. **When removing the LCD panels make sure you counter the weight of the other LCD screens to prevent the unit from tipping.** Lift the LCD panel and place on a flat surface.
 - To tighten 'ball joint' simply turn two Phillips screws (A), turn a quarter turn until desired position is achieved.
 - Review Detail of Quick Release System (above) for the location of the 'quick release' latch.

CONNECTING YOUR MONITORS

- OPERATION**
- Ensure power is off before proceeding with the installation.
 - Connect the video cable marked with "A" or "1" to the first video output of your computer.
 - Similarly connect the video cable marked with "B" or "2" to the second video output of your computer.
 - Connect the output cables of the power supplies to the five pin DIN connectors.
 - Connect the power cords.
 - Turn your computer on.
 - Turn the screens on by pressing the power button located on the lower back of each monitor. Power indicator will light.

LOCATION OF CONTROLS

INTERFACE DESCRIPTION

REAR CONTROL PANEL	
Power	Turns the monitor On/Off
Menu	Displays the menu. Exits the menu or control screen.
Up/Down Select	Highlights next menu item
Increment/Decrement	(+/-) Changes the value of the selected item or highlights the next menu item in a submenu.
FRONT PANEL	
Green light = power on	Amber light = loss of video

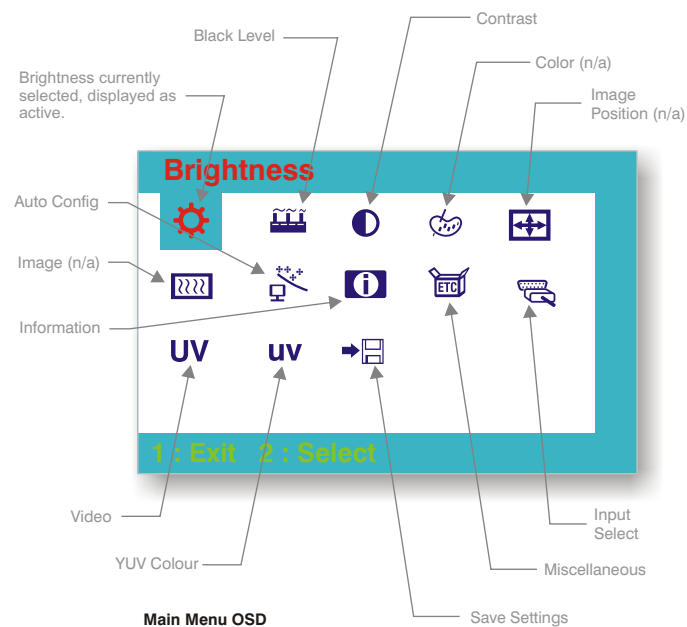

SPECIFICATION

Property	Description
Monitor Type	Integrated dual screen LCD
Size and Weight	20.5" x 36.0" x 10.0" (H x W x D) approximately 39 lbs (17.6 kg)
Power Requirements	Line Voltage: 100 to 240 VAC, 50 - 60 Hz Power: 44W (operating)
Resolution (per screen, multi-scan)	640 x 400, 720 x 400, 640 x 480, 800 x 600, 832 x 624, 1024 x 768 and 1280 x 1024
Resolution (aggregate max.)	2560 x 1024
Pixel Pitch	0.2805 (H) x 0.2805 (V)
Color Depth	16 Million (True color)
Viewing Angle	Up 80°, down 80°, right 80°, left 80° typical
Brightness	235 cd/m ²
Contrast Ratio	300:1 typical
Screen Size and Type	18.1" diagonal active matrix TFT
Surface Treatment	Anti-glare and hard coatings 2H
User Controls	Power on/off On Screen Control - Menu Select up/down Increment / decrement
Approvals	FCC, CE, Entela
Input Connections	2 x 29-pin DVI-I connector
Support Structure	Aluminum

TROUBLESHOOTING

Problem	Suggested remedies
No image on one or more screens	Make sure cables are properly fastened. Check power to monitors. Check video connection from computer to monitors. Check seating and bus location of video card. Use known working monitor to check for signal. Re-boot the computer. Re-install driver software.
Screen viewing order is incorrect. Colors are not clear. Screens will not stay in one position.	Use driver software to re-tiler monitor order. Check color settings within the O/S controls.. Check to make sure screen mounting pivots are properly fastened and tightened.

	UV YUV COLOR	:: Adjusts; brightness, black level, contrast, saturation, hue and flesh tone
	SAVE	:: Saves LCD settings

LIMITED WARRANTY

MASS, Inc. warrants to the original consumer purchaser ("purchaser") of this product that the MASS product purchased shall be free from defects in materials and workmanship for a period of 3 years of normal use. This warranty does not cover any incompatibilities due to the purchaser's computer, hardware, software or any other configuration in which the product interfaces. If a defect covered by this limited warranty occurs, MASS, at its option, will repair or replace the defective MASS product free of charge.

No other warranties are expressed or implied, including but not limited to, any implied warranties of merchantability or fitness for a particular purpose. In no event shall MASS Engineered Design Inc. be liable for consequential or incidental damages resulting from the use or installation of any MASS product, or the breach of any express or implied warranties. MASS's liability to purchaser with respect to any claim or loss arising out of this transaction or alleged to have resulted from an act or omission of MASS shall be limited to purchasers' cost of the MASS product.

Some states do not allow the exclusion of consequential or incidental damages, so the above exclusion may not apply to you. This warranty provides you with specific legal rights. You may have other rights that vary from state to state.

MASS reserves the right to replace any defective MASS product with product of equivalent or superior performance. Such replacement product may be remanufactured product or manufactured using remanufactured components at MASS's option. Repaired or replaced product will be covered by the same warranty.

This 3-year warranty does not apply to defects caused by abuse, misuse, negligence, accident, tampering, modification or other causes not related to defective materials or workmanship. MASS reserves the right to impose a reasonable charge for the repair of products returned with defects resulting from any of the above causes and for returns where the product is found to be in good working condition.

To receive warranty service call MASS's Technical Support department at 1-888-603-9858 in the United States & Canada or email technical@massedi.com. Before returning any product for service, you must speak to one of our service representatives. The service representative will issue a RMA number and additional instructions for returning your defective product. No MASS product will be accepted for repair without an RMA number. The purchaser shall pay the cost of returning the defective product to MASS's service center.

WARRANTY

LIMITATION OF IMPLIED WARRANTIES

There are no warranties, express or implied, which extend beyond the description contained herein including the implied warranty of merchantability and fitness for a particular purpose.

EXCLUSION OF DAMAGES

MASS Engineered Design Inc.'s liability is limited to the cost of repair or replacement of the product. MASS Engineered Design Inc. shall not be liable for:

1. Damage to other property caused by any defects in the product, damages based upon inconvenience, loss of use of the product, loss of time, loss of profits, loss of business opportunity, loss of goodwill, interference with business relationships, or other commercial loss, even if advised of the possibility of such damages.
2. Any other damages, whether incidental, consequential or otherwise.
3. Any claim against the customer by any other party.

For MASS Inc. products sold outside North America, contact your MASS Engineered Design Inc. Dealer warranty information and service.

FCC INFORMATION

This equipment has been tested and found to comply with the limits for a Class B digital devices, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.
- Ensure the area around the monitor is clean and free of moisture

FCC WARNINGS:

Changes or modifications not expressly approved by MASS INC. could void the user's authority to operate the equipment.

FOR YOUR RECORDS

The serial number of this product is on the back of the monitor. Write the serial number of this unit in the space below and keep this booklet as a permanent record of your purchase to aid in identification in the event of theft or loss.
